

FOR IMMEDIATE RELEASE

“Acid Free” Peeling Agent Effective for All Skin Types

Toronto, Ontario – April 24, 2006, Biophora – Science Made Simple, a Canadian manufacturer and distributor of medical skin care to plastic surgeons and physicians launches its latest at home treatment formulation; **Enzyme Exfoliating Mask**.

Description: A powerful “acid free” exfoliating mask containing thermostable biological emollients from pineapple and papaya fruit enzymes. Features diatomaceous earth made up of porous fossilized rock called diatoms, used as gentle soft scrub particles for intense exfoliation effects, without risk of irritating the skin.

Product Purpose: A gentle and effective, physical enzymatic skin exfoliator. Will leave the skin feeling refreshed and smooth – free of dead skin cells and debris. Will help minimize acne conditions and reduce the signs of aging.

Application: Apply a small amount to a clean face. Massage product gently for 2–3 minutes. Then apply small amount of warm water with fingertips avoiding eye area. Massage for another 2–3 minutes. Rinse thoroughly.

Caution: For external use only. Keep out of reach of children. If irritation occurs, discontinue use. Avoid contact with eyes.
