

Features and Benefits of Biophora—Science Made Simple

We are proud to highlight the following features that make Biophora's professional cabin and retail lines unique, effective and profitable skin care programs for you to offer your patients:

- ✓ Highly effective state-of-the-art medical grade as well as nourishing botanical ingredients, target all skin types and conditions.
- ✓ Convenient trial and post-op kits provide patients with the perfect introduction to appropriate product use and ensure graduation to larger retail sizes.
- ✓ 4-6 Biophora home-care products provide 60% of the benefits of our system—simple daily use regimens along with a customizable range of high potency specialty product to resolve specific skin conditions.
- ✓ Clinical facials and well-tolerated in-office treatments account for substantial benefits.
- ✓ Exclusively available only in physician supervised offices – not sold on line, in department or drug stores.
- ✓ One of the most moderately and affordably priced medical skin care lines in the industry.
- ✓ 100% product guarantee – if you or your clients want to return the product for any reason, you will be given a full credit or product replacement.
- ✓ Fragrance/paraben/controversial ingredient-free, not tested on animals.
- ✓ Highest quality French essential oils used for their medicinal and healing properties.
- ✓ Simple, recyclable containers with a focus on state-of-the-art ingredients.
- ✓ Canadian made, manufactured and distributed; owned by three women founders who have keenly listened to and understood the needs of their customers for over 30 years.
- ✓ Biophora's cutting edge formulations have been developed through the collaboration of chemists, plastic surgeons, dermatologists, naturopathic doctors and anti-aging specialists.

Effective, top-quality products, thorough training programs, and personalized customer service; all provided by our team of professionals, make Biophora a highly successful contender in a competitive international industry.
