

AT A GLANCE SKIN TYPE AND PRODUCT GUIDE

ELEMENT EXPOSED / NORMAL AGING SKIN

Characterized by damage caused by exposure to the sun, harsh weather, pollutants, smoking, dehydration, and age-related conditions such as fine lines, sun spots, dull skin surfaces, and uneven or hyper-pigmentation.

ACNE / OILY SKIN

Characterized by the presence of pustules, pimples, large pores, blackheads, whiteheads, or frequent breakouts and shiny appearance of the skin.

SENSITIVE / ROSACEA / DRY SKIN

Often includes lighter skin tones which are more sensitive and reactive sun exposure, chemicals, fragrances, dyes, foods, rough fabrics, etc. Conditions such as Eczema, Psoriasis and Rosacea are also included. May react with redness, burning, and itching to AHA's, BHA's and other active ingredients.
