

science made simple

## ELEMENT EXPOSED / NORMAL AGING SKIN

Most patients will fall into this skin category. In addition to in-office 20% – 40% Glycolic Peels (sourced outside of Biophora) as tolerated, recommend the following home care products designed to address typical sun or other damage caused by exposure to harsh weather, pollutants, smoking, dehydration, hyperpigmentation, melasma, hormonal breakouts, and age-related conditions such as fine lines, wrinkles, sun spots, dull skin surface and uneven pigmentation.

**1. Bioactive Cleanser**

This pH correct formulation of 1% Glycolic Acid, Green Tea Extract and Vitamins C and E provides exfoliation of dead skin cells with healing and antioxidant properties without drying the skin.

**2. Bioactive Solution**

This active skin toner/exfoliator contains 3% Glycolic Acid with a blend of de-congesting botanicals, Eucalyptus, Vitamin C and skin brightening agents.

**Optional – AM and PM:**

**3. Hyaluronic Treatment Serum**

A powerful hydrating serum that holds up to 1000 times its weight in moisture resulting in a youthful, refreshed, dewy-looking complexion. It contains a particularly high concentration of hyaluronic acid (1.5%) with a light molecular weight for optimum absorption that plumps the skin with a healthy glow. In addition to daily client use, it may also be used professionally during microneedling. All ingredients are absorbed quickly and held underneath the skin's surface to deeply soothe, plump, and hydrate the skin.

**4. Antioxidant Moisturizer**

Antiaging moisturizer designed to prevent and repair free-radical damage. It infuses hydration deep within the upper layers of the skin, leaving a smooth, soft, supple, and healthy glow. This non-oily, nutrient-rich moisturizer contains the antioxidant power of Vitamin A, D, E, along with cell repair and healing properties. It regenerates lipids and promotes skin elasticity for a firmer, tighter, more youthful appearance, minimizing the look of fine lines and wrinkles.

**5. Daily Protection SPF30**

A light, non-oily, antioxidant-rich, chemical, and physical barrier formula with Titanium Dioxide. UVA/UVB broad-spectrum block to protect skin from the sun's harmful rays and to guard against sun damage. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for BIOPHORA peels and programs.

**6. Bioactive Gel 8%**

An advanced exfoliating formulation with Glycolic Acid (8%) and Salicylic Acid, as well as Arbutin and Kojic Acid as skin-lightening agents, with anti-inflammatory and anti-acne ingredients. Dispense 2–3 pumps between the palms of hands and apply to face and neck. Avoid eye area. Use every other night for first week and every night the second week (only as tolerated to avoid irritation).

**Optional PM:**

**PURE C \*** - Stable 100% pure topical Vitamin C with lightening, brightening, antioxidant, and anti-aging properties. Add one scoop to Bioactive Gel for more aggressive results as tolerated.

**7. Night Protection**

A light and soothing antiaging night cream that acts as a second skin, designed to hold in active ingredients, while nourishing and helping to maintain skin's natural moisture balance. Contains Niacinamide (Vitamin B-3), a potent cell-communicating ingredient that has shown to dramatically improve skin's elasticity and helps to lighten discoloration. Its non-irritating, soothing and wound-healing properties help to revive skin's healthy tone and texture while plumping fine lines and wrinkles and brightening the complexion.

## ACNE / OILY SKIN

Acne or oily skin is characterized by the presence of pustules or pimples, large pores, blackheads, whiteheads or frequent breakouts and shiny appearance of the skin. In addition to in-office peels (particularly Salicylic Peels as tolerated, (sourced outside of Biophora) recommend the following at home products designed to reduce bacteria buildup and loosen debris that clogs the pores. The goal is to increase cellular turnover resulting in normally functioning pores, which can release the flow of oil.

**1. Bioactive Cleanser**

This pH correct formulation of 1% Glycolic Acid, Green Tea Extract and Vitamins C and E provides exfoliation of dead skin cells with healing and antioxidant properties without drying the skin.

**2. Bioactive Solution**

This active skin toner/exfoliator contains 3% Glycolic Acid with a blend of de-congesting botanicals, Eucalyptus, Vitamin C, and skin brightening agents.

**OR recommend Bioactive Solution Extra Strength 5%**

A more active skin toner/exfoliator with a blend of 5% Glycolic Acid, decongesting botanicals, Eucalyptus, Vitamin C, and skin brightening agents. Recommend this as tolerated for non-responsive acneic skin conditions.

**3. Light Hydration** - A weightless anti-aging serum, with peptides, antioxidants, hyaluronic acid, and vitamins A, B, C, D3, and E. This highly-effective formula regenerates the cells and stimulate the production of Collagen, Elastin, and Fibronectin - elements that bind tissue, minimizing the look of fine lines and wrinkles. It effectively delivers emollients and nutrients to the skin without oily residue and its water-binding properties prevent moisture loss. It is an ideal moisturizer for oily skin but appropriate for all skin types for light hydration resulting in a plumper, more youthful appearance.

**4. Daily Protection SPF30** – A light, non-oily, antioxidant-rich, chemical, and physical barrier formula with Titanium Dioxide. UVA/UVB broad-spectrum block to protect skin from the sun's harmful rays and to guard against sun damage. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for BIOPHORA peels and programs.

**Optional AM or PM:**

**Spotless:** Neutral-toned, clay-based spot treatment helps to clarify acne-prone skin quickly and efficiently with healing and purifying ingredients without drying surrounding areas with 5% Lactic Acid, 2% Salicylic Acid, 2% Glycolic Acid, 2% Niacinamide, 3% Tea Tree Oil. Apply only on affected area to avoid severe irritation, keep away from eyes. Can be used AM or PM as needed.

**4. Bioactive Gel 8%**

An advanced exfoliating formulation with Glycolic Acid (8%) and Salicylic Acid, as well as Arbutin and Kojic Acid as skin-lightening agents, with anti-inflammatory and anti-acne ingredients.

**Optional PM:**

**PURE C \*** - Stable 100% pure topical Vitamin C with lightening, brightening, antioxidant, and anti-aging properties. Add one scoop to Bioactive Gel for more aggressive results as tolerated.

**5. Antibac Veil** - A light, antibacterial, oil-control cream with non-irritating properties. Contains Salicylic Acid which helps to clear pores preventing bacteria build up. Its protective veil seals in moisture, while effectively mattifying the skin for a clearer appearance with fewer breakouts. Contains Niacinamide (Vitamin B-3), a potent cell-communicating ingredient that has shown to dramatically improve skin's elasticity and helps to lighten discoloration.

## SENSITIVE / DRY SKIN/ MATURE SKIN

Some individuals will have particularly sensitive or dry skin. This category may include the lighter skin tones on the Fitzpatrick Scale, which are more sensitive to the sun, chemicals, fragrances, dyes, foods, rough fabrics, etc. Conditions such as Eczema and Psoriasis could also be included in this category. This skin type in turn may react with redness, burning and itching to Glycolic Acid, Salicylic Acid, or other active ingredients. Also, aging skin, with low lipid content may need extra hydration and gentler exfoliation and therefore should start out in this category. In addition to the Biophora Enzyme Exfoliator and Lactic Acid Peels, the following products will help heal and normalize the skin perhaps even gradually allowing for the use of more progressive treatments and products.

1. **Calming Cleanser** – A gentle, moisturizing, pH-correct cleanser with calming and hydrating botanicals and extracts containing Aloe, Vitamin C and E.
2. **Calming Toner** – A soothing, pH-correct, nutrient, and botanically-rich moisturizing toner with Aloe, Witch Hazel Extract and Chamomile designed to refresh, tone and hydrate irritated and sensitive skin.  
**Optional AM or PM**  
**Après Soothing Serum** – A calming serum perfect for daily hydration due to its soothing, restorative properties derived from active botanicals, niacinamide, and particularly high concentration of 1% hyaluronic acid. Aloe Barbadensis Leaf Juice, Mushroom Extract, Ginseng Root Extract, probiotics, Sodium Hyaluronate, and Hyaluronic Acid. Excellent for the rapid healing of Eczema, sensitive skin, dry cracked lips, and nose. Effectively calms inflammation and irritation for overall improvement of the entire complexion. Highly effective as a post-procedure healing serum.
3. **DermaRich Moisturizer** – An antioxidant and emollient moisturizer with superior nourishing, soothing and hydrating nutrients including Grape Seed Extract, Green Tea Extract, Chamomile and Vitamin E.
8. **Daily Protection SPF30** – A light, non-oily, antioxidant-rich, chemical, and physical barrier formula with Titanium Dioxide. UVA/UVB broad-spectrum block to protect skin from the sun's harmful rays and to guard against sun damage. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for BIOPHORA peels and programs.  
**Optional PM**  
**SenCitric Lotion** - A light, citric acid-based formula, which is one of the Alpha Hydroxy acids derived from citrus fruit. The lotion provides gentle and non-irritating properties for daily at home for all skin types. It helps to repair and sustain the improvement of sun-damaged skin and is effective for sensitive skin with acne conditions, rosacea, uneven pigmentation, sunspots, aged skin, and fine lines. It firms, smoothes and improves the tone and texture of the skin without irritation. Dispense a small amount and apply to face every other night after Calming Toner, Après Soothing Serum.  
**Optional PM**  
**Lactic Acid Serum** - Exfoliates, brightens, and smooths, reducing the appearance of crepiness, blemishes, rough texture, small bumps, sun damage, and age-related discoloration. With 10% Lactic Acid, Niacinamide, 2% Salicylic Acid, and Sodium Hyaluronate, it's excellent for the rapid healing of Eczema and Rosacea, sensitivity, and instantly improves redness, irritation, and inflammation.  
**Gentle AHA Cream** – A rich and effective emollient cream formulated with 6% Lactic acid and Vitamin E to gently exfoliate and restore youthful skin qualities to Sensitive / Dry Skin without irritation.
9. **Night Protection**  
A light and soothing antiaging night cream that acts as a second skin, designed to hold in active ingredients, while nourishing and helping to maintain skin's natural moisture balance. Its non-irritating, soothing and wound-healing properties help to revive skin's healthy tone and texture while plumping fine lines and wrinkles. Contains Niacinamide (Vitamin B-3), a potent cell-communicating ingredient that has shown to dramatically improve skin's elasticity and helps to lighten discoloration, and brightening the complexion.

## ROSACEA SKIN

Rosacea is a vascular, acne-like skin disorder that is characterized by a flushed, red color to the cheeks, nose, and chin. It can present with broken capillaries, pustules, larger pores, and red inflamed patches of eczema. Factors that tend to flare the condition include a hypersensitive reaction to stress, emotion stimuli, certain foods, alcohol, and temperature change. Although considered a sensitive skin type, Rosacea has its own variations in treatment below.

### 1. Calming Cleanser

A soothing, moisturizing, pH correct cleanser with calming and hydrating botanicals and extracts containing Aloe, Vitamin C and E.

### 2. Calming Toner

A soothing, pH-correct, nutrient, and botanically rich moisturizing toner with Aloe, Witch Hazel Extract and Chamomile designed to refresh, tone and hydrate irritated and sensitive skin

### 3. Antioxidant Moisturizer

An antioxidant and emollient moisturizer with superior nourishing, soothing and hydrating nutrients including Grape Seed Extract, Green Tea Extract, Chamomile and Vitamin E.

### 4. Daily Protection SPF30

A light, non-oily, antioxidant-rich, chemical, and physical barrier formula with Titanium Dioxide. UVA/UVB broad-spectrum block to protect skin from the sun's harmful rays and to guard against sun damage. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for BIOPHORA peels and programs.

#### Steps to integrate for best results:

- **Sen-Citric Lotion**

A light, citric acid-based formula, which is one of the Alpha Hydroxy acids derived from citrus fruit. The lotion provides gentle and non-irritating properties for daily at home for all skin types. It helps to repair and sustain the improvement of sun-damaged skin and is effective for sensitive skin with acne conditions, rosacea, uneven pigmentation, sunspots, aged skin, and fine lines. It firms, smoothes, and improves the tone and texture of the skin without irritation. Dispense a small amount and apply to face every other night after Calming Toner, and Après Soothing Serum.

- **Lactic Acid Serum**

Exfoliates, brightens, and smoothes, reducing the appearance of crepiness, blemishes, rough texture, small bumps, sun damage, and age-related discoloration. Lactic Acid, Niacinamide, Salicylic Acid, and Sodium Hyaluronate. Apply a small amount using fingertips to face and neck, alternating every other night **with Gentle AHA Cream** as tolerated.

### 5. Gentle AHA Cream

A rich and effective emollient cream formulated with 6% Lactic acid and Vitamin E to gently exfoliate and restore youthful skin qualities to Sensitive / Dry Skin without irritation.

### 6. Night Protection

A light and soothing antiaging night cream that acts as a second skin, designed to hold in active ingredients, while nourishing and helping to maintain skin's natural moisture balance. Contains Niacinamide (Vitamin B-3), a potent cell-communicating ingredient that has shown to dramatically improve skin's elasticity and helps to lighten discoloration. Its non-irritating, soothing and wound-healing properties help to revive skin's healthy tone and texture while plumping fine lines and wrinkles and brightening the complexion.

## **MEN'S SKIN (MAN KIT)**

Men have very specific skin care needs. Even though the cleansing, conditioning, toning, moisturizing, and protection, steps are important for all skin types, due to shaving and the prevention of shaving bumps, and care of sensitized skin, there are several BIOPHORA products that should be recommended for men's daily regimens as well.

**1. Bioactive Cleanser**

This pH correct formulation of 1% Glycolic Acid, Green Tea Extract and Vitamins C and E provides exfoliation of dead skin cells with healing and antioxidant properties without drying the skin.

**2. Bioactive Solution**

This active skin toner/exfoliator contains 3% Glycolic Acid with a blend of de-congesting botanicals, Eucalyptus, Vitamin C and skin brightening agents.

**3 Enzyme Exfoliator -**

This powerful "acid free" exfoliating mask contains pineapple and papaya fruit enzymes and soft scrub particles that gently remove dead skin cells without the risk of irritating the skin. This product leaves the skin looking and feeling remarkably refreshed, reducing the signs of aging. Recommend to patients for use once a week at home on its own or prior to using the Multivitamin Freeze Mask.

**4 Sen-Citric Lotion 10%**

A light, citric acid-based formula, which is one of the Alpha Hydroxy acids derived from citrus fruit. The lotion provides gentle and non-irritating properties for daily at home use for all skin types. It firms, smoothes, and improves the tone and texture of the skin without irritation. Men may use it as tolerated to prevent shaving bumps. This product may be applied with or instead of moisturizer as needed, before SPF protection.

**5 Daily Protection SPF30**

A light, non-oily, antioxidant-rich, chemical, and physical barrier formula with Titanium Dioxide. UVA/UVB broad-spectrum block to protect skin from the sun's harmful rays and to guard against sun damage. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for BIOPHORA peels and programs.

**10. Night Protection**

A light and soothing antiaging night cream that acts as a second skin, designed to hold in active ingredients, while nourishing and helping to maintain skin's natural moisture balance. Contains Niacinamide (Vitamin B-3), a potent cell-communicating ingredient that has shown to dramatically improve skin's elasticity and helps to lighten discoloration. Its non-irritating, soothing and wound-healing properties help to revive skin's healthy tone and texture while plumping fine lines and wrinkles and brightening the complexion.

## SPECIALTY PRODUCTS

There are a number of BIOPHORA products that are suitable to augment the results of the basic product categories for most skin types. These products should be recommended at the discretion of the BIOPHORA Technician to enhance treatment as tolerated, for greater results and patient satisfaction.

- 1) PURE "C"** - This highly stable and absorbable 100% pure topical Vitamin C (l-ascorbic acid) dissolves instantly into compatible BIOPHORA products. It is effective for increasing collagen production, repairing the skin and assisting in protecting the skin from future damage while improving the appearance of fine lines and refining the texture and tone of the skin. Combine with products having a pH of 3.5 or less such as Bioactive Gel, AHA Active Gel or Gentle AHA Cream for more aggressive results. Combine with Antioxidant Moisturizer, SPF protection, or DermaRich Moisturizer for a less aggressive regime.
- 2) Enzyme Exfoliator** - This powerful "acid free" exfoliating mask contains pineapple and papaya fruit enzymes and soft scrub particles that gently remove dead skin cells without the risk of irritating the skin. This product leaves the skin looking and feeling remarkably refreshed, reducing the signs of aging. Recommend to patients for use once a week at home on its own or prior to using the Multivitamin Freeze Mask.
- 3) Intensive Anti-Aging Eye Treatment** - A light hydrating and non-irritating antioxidant and botanically rich formulation especially designed to treat the delicate eye area. It stimulates collagen synthesis and enhances circulation in the capillaries to plump and firm sensitive eye tissue. It is effective for the reduction of the appearance of fine lines and wrinkles.
- 4) Sen-Citric Lotion 10%** - A light, citric acid-based formula, which is one of the Alpha Hydroxy acids derived from citrus fruit. The lotion provides gentle and non-irritating properties for daily at home for all skin types including Rosacea as tolerated. It helps to repair and sustain the improvement of sun-damaged skin and is effective for sensitive skin with acne conditions, rosacea, uneven pigmentation, sunspots, aged skin, and fine lines. It firms, smoothes and improves the tone and texture of the skin without irritation for a flawless make-up application. Men may use it to prevent shaving bumps and women for bikini ingrown hairs and bumps as tolerated. This product may be applied with or instead of moisturizer as needed, before SPF protection.
- 5) Multivitamin Freeze Mask** - A refreshing, cooling and nourishing clay-based mask with a neutral pH containing Collagen, Elastin and Vitamins A, E, C, D3, K and B complex, which hydrate, nourish and lift the skin especially after exfoliation. Regular use helps to refine pores and diminish the appearance of broken capillaries and rosacea. The mask renews tired skin and is especially designed for optional use after a BIOPHORA Enzyme, Lactic Acid Peel or out-sourced 20% or 30% Glycolic Peel for intensive nourishment of the skin. Use as tolerated after out-sourced 40% or 50% Glycolic Peel or after laser treatments with doctor's supervision only. Recommend to your patients for once a week, at-home use, on its own or after the Enzyme Exfoliating Mask.
- 6) Bioactive Firming Cream** - Rich in DMAE, peptides, antioxidants and botanicals which lift, firm, and nourish the skin as well as enhance circulation and collagen synthesis without irritation. Helps to diminish the appearance of fine lines and wrinkles. Suitable for all skin types for face, neck and décolleté. Avoid oily T-zone and direct contact with the eyes. Can be used daily as tolerated instead of or as an adjunct to the moisturizing step.
- 7) Bioactive Retinol Creams** - Retinols are a non-prescription, non-irritating derivative of the Vitamin A family. The 30, 60, and 90 are arbitrary designations for creams containing 0.30%, 0.60%, and 0.90% percentages of Retinol and are used as tolerated to increase collagen production, improve acne, and diminish the appearance of fine lines and wrinkles. Tightens and smoothes the skin by way of cell division and enzymatic activity. Recommend according to skin type and tolerance. Alternate the use of Retinols and Acids to avoid irritation (one night retinol, one night acid).
- 8) Intense Hydration** - This best-selling antiaging cocktail containing Hyacare 50 (clinically-studied hyaluronic acid complex) along with Matrixyl 3000 (powerful skin-firming peptides), combine to activate cell rejuvenation and to restore the lipid barrier. Carried in an elegant rose scent, it also features Vitamin A, C and E, which deeply penetrate and hydrate to moisturize, firm, and revitalize the appearance of the skin for a softer and smoother look. Helps to boost collagen and elastin production and visibly reduces and prevents the appearance of fine lines and wrinkles.
- 9) Liquid Gold** - Our potent vitamin elixir is a blend of luxurious natural essential oils that help lock in moisture to keep the skin soft, healthy, and hydrated. This Holy Grail of antiaging is packed with antioxidants amino acids and rich in Vitamins C, E, and F that leave the skin with a serious radiant glow! You'll fall in love with this oil's elegant texture and delicious scent, and you'll fall in love with the results! It plumps wrinkles and increases overall skin health with L22—a blend of lipids that mimic those of youthful skin and aid in skin barrier recovery. The formulation includes clinically studied actives, plus the regenerative properties of coconut oil, Shea butter, Lavender, Roman Chamomile, Sandalwood, Bulgarian Rose, Myrrh and Frankincense. Avoid oily areas of the skin.
- 10) Ultimate Refining Serum** - Brightens and renews the look of the skin. Minimizes the appearance of age spots and redness. Skin looks thicker and smoother as trans-epidermal water loss is decreased and moisture is retained. A non-occlusive film protects skin while being infused with natural botanicals, Niacinamide, Vitamin C, antioxidants, and anti-inflammatory molecules. This powerful multi-peptide formulation with a natural, probiotic preservative, is a highly-effective antiaging formula especially for oily, more mature skin.

**11) Après Soothing Serum** - A calming serum perfect for daily hydration due to its soothing, restorative properties derived from active botanicals, Niacinamide, and particularly high concentration of 1% hyaluronic acid. Aloe Barbadosensis Leaf Juice, Mushroom Extract, Ginseng Root Extract, probiotics, Sodium Hyaluronate, and Hyaluronic Acid. Excellent for the rapid healing of Eczema, sensitive skin, dry cracked lips, and nose. Effectively calms inflammation and irritation for overall improvement of the entire complexion. Highly effective as a post-procedure healing serum.

**12) Hyaluronic Treatment Serum** – A powerful hydrating serum that holds up to 1000 times its weight in moisture resulting in a youthful, refreshed, dewy-looking complexion. It contains a particularly high concentration of hyaluronic acid (1.5%) with a light molecular weight for optimum absorption that plumps the skin with a healthy glow. In addition to daily client use, it may also be used professionally during microneedling. All ingredients are absorbed quickly and held underneath the skin's surface to deeply soothe, plump, and hydrate the skin.

**13) Rejuvenating Elixir (Eye, Lip, and Neck Serum)** - An active serum of botanical extracts, hyaluronic acid, and clinically-studied formulations; highly effective for its anti-aging and restorative properties. Minimizes puffiness and plumps fine lines. Used for the entire face as desired. Contains Niacinamide, Black Currant Seed Oil, Vitamin E, Ginseng Root Extract, Mango Seed Butter, and Hyaluronic Acid.

**14) Spotless – Targeted Oil Control** The restorative ingredients of this targeted oil-control lotion, with 5% Lactic Acid, 5% Glycolic, 2% Salicylic Acid, 2% Niacinamide, Zinc lactate, 3% Tea Tree Oil, provide antimicrobial properties and help to clarify oiliness, minimize the look of large pores, and stubborn blackheads, quickly and efficiently when applied directly on the spot! Apply locally, directly on the affected area or spot. Use as tolerated, sparingly and with caution to avoid irritation and burning.

**15) Tinted Mineral SPF30** - Hypoallergenic full-spectrum, tinted sunscreen in light and medium shades without parabens or PABA. Titanium dioxide and zinc oxide formulated in an Aloe Vera base, hydrate and absorb smoothly without streaking. Contains no harsh chemicals; safe for coral and marine life. Daily use is an essential component of BIOPHORA protocol. Patients who do not choose to use sunscreen are not appropriate candidates for peels and BIOPHORA programs.

**16) Biophora Home Facial Peel (Includes AHA Active Gel and Lactic Acid Serum)**

Biophora offers an effective at-home Alpha Hydroxy facial peel with instant visible results to be used before bedtime. First use Bioactive Cleanser, Bioactive Solution, Hyaluronic Acid as directed. Then mix 1 pump of **AHA Active Gel** with 1 pump **Lactic Acid Serum**, and mix in 1 level spoon of **Pure C** (optional). Carefully apply across entire face and neck with clean finger tips and leave on, no need to remove. For Element Exposed or Acne Oily Skin, follow up with Night Protection or Antibac Veil respectively. If additional moisturizing is required, follow up with these optional layers depending on your skin type:

- **Intense Hydration** (Element Exposed or Sensitive Dry)
- **Rejuvenating Elixir** (All Skin Types as tolerated)
- **Dermarich Moisturizer** (Very Dry or sensitive skin)

**Do not get into eyes. Rinse thoroughly with water if there is contact with eyes.** Use once a week to start and increase to every other night or as tolerated based on skin type and reactivity.

**17) Latte Blu** - A gentle, healing formula that keeps skin hydrated while thoroughly cleansing with a milky texture. Superior trademarked oxygenating complex rejuvenates through increased microcirculation, enriching the oxygen level of skin creating a dermal-filling effect. Its active ingredients and soothing botanicals provide healing and calming properties particularly helpful for very dry or sensitive skin.

**18) Golden Glo** - An elegantly glistening serum, containing active ingredients that stimulate the production of Collagen, Elastin, and Fibronectin; firming structures of the skin. Helps to increase circulation and cell respiration while nourishing, protecting, and healing the skin with the antioxidant and anti-inflammatory protection of Vitamins and other active anti-aging ingredients. Added bonus—its natural mineral content creates that sun-kissed celebrity glow! Weightless, but highly-effective serum is formulated to firm, nourish, and refine the appearance of the skin. Rich in Vitamins A, B, D3, E and K as well as Peptides and Hyaluronic acid. An ideal nourishing serum especially effective for all skin types. Leaves the skin feeling dewy and refreshed without oily residue and literally a golden glow; a mineral-based sheen.

**29) Advanced Protection SPF45** – PABA and Paraben-Free, no slip, non-greasy, water and sweat-resistant broad spectrum, UVA and UVB Protection sunscreen in a soothing Aloe Vera Gel base. It protects skin from the sun's harmful rays and can be applied on its own or over the top of the appropriate moisturizer.

**20) Post-Care Pump Kit** – Includes Calming Cleanser, Dermarich Moisturizer, and Daily Protection SPF30 (15/30mL pumps) to gently cleanse, moisturize, and protect the skin. Use primarily after a Salicylic Peel or light microneedling. This calming, soothing, rehydrating combination of products restores lipids, helps to minimize redness, and prevents sensitive skin from exposure to the sun. Kit is to be used for 2-7 days post treatment for its restorative and healing benefits.

**21) Post-Procedure Kit** – includes Calming Cleanser, Après Soothing Serum, Dermarich Moisturizer, and Daily Protection SPF30 (15/30mL pumps). Kit is to be used after more aggressive microneedling procedures to gently cleanse, heal, hydrate, and protect the skin. The key healing agent in this synergistic grouping is the Après Serum with 1% Hyaluronic Acid to soothe, rehydrate, restore lipids, minimize redness, and calm the sunburn sensation. Suggested use; 2-7 days.

**22) Post-Laser Kit** – Includes Calming Cleanser, Dermarich Moisturizer, Oxygenating HydroMatrix, Daily Protection SPF30 (15/30mL pumps). In addition to gently cleansing, hydrating, minimizing swelling and redness, and protecting the skin post CO2 or fractional laser, the Oxygenating HydroMatrix Moisturizer with its Aloe base and clinically proven Ceravite oxygenating formula, expedites the healing process and virtually cuts downtime in half. Suggested use; 2-7 days.

**23) Lactic Acid Serum** - Exfoliates, brightens, and smooths, reducing the appearance of crepiness, blemishes, rough texture, small bumps, sun damage, and age-related discoloration. With 10% Lactic Acid, Niacinamide, 2% Salicylic Acid, and Sodium Hyaluronate, it's excellent for the rapid healing of Eczema and Rosacea, and instantly improves redness, irritation, and inflammation.

**24) AHA Active Gel** – A more powerful, advanced-exfoliating formulation with Glycolic Acid and Salicylic Acid, as well as Arbutin and Kojic Acid as skin-lightening agents, with anti-inflammatory and anti-acne ingredients for stubborn, resistive skin. **(Don't Use on Asian or Black Skin until lower percentages are applied and well-tolerated without the development of hyper/hypo-pigmentation – review protocol.**
